

## The AVID ACADEMIC

*"College is about higher learning and challenging yourself."*

### **Goals:**

Find a college that's a perfect fit academically with like-minded classmates

### **Needs:**

Comparative grades and test scores  
Strong department for major

### **Frustrations:**

It's hard to tell what "kinds" of students are in the school or if it's a party school.  
They may be rejected by schools if they aim too high.

The **AVID ACADEMIC** needs to find a learning-focused college with enlightened peers because they want to be a part of a strong, thoughtful learning environment.
